STAT

I regret that I have delayed so long in answering your letter but what with business and being called away from the city at intervals I just have not had an opportunity.

Thank you very much for your offer to work for us which offer you may be sure we shall keep in an active file. At the present there is really nothing that you can do, but one never knows what may happen in the near future.

With very best wishes, believe me,

Sincerely,

SIGNED -
